MEMORANDUM FOR: Director of Central Intelligence

FROM   : Stanley M. Moskowitz
                National Intelligence Officer for USSR-EE

SUBJECT   : Request to Distribute Polish Memorandum
                to NFIB Principals

1. Friday's reps meeting on the Poland SNIE went smoothly, and the draft which emerged is basically unchanged from the one you have seen. We instructed the reps that, if events in Poland on Tuesday warranted, we would make necessary changes or adjustments and submit it directly to the NFIB on Wednesday afternoon. We would then hold a clean-up session on Thursday to insure that the final language is acceptable to all agencies.

2. On the three specific points you raised:

   --"Wolf tickets". We do treat the regime's repression and intimidation of workers through the firing of alleged activists in the resistance movement.

   --Difference between Glemp and the Pope. The message which is the basis for our assertion is attached. In addition, we believe that the Pope's silence on the sanctions is indicative of his views.

   --Divergent views on the security organs' penetration of Solidarity: The Memorandum to Holders points out the continued effectiveness of Polish security organs. We believe, however, that they have fallen far short of breaking the reorganized Solidarity nuclei. We believe that events over the weekend support this view: The reemergence of Radio Solidarity and the issuance of the Bujak statement are two developments which the regime would certainly have prevented if it could.
